

International Systemic Team Coaching® Certificate

3 Day Programme with John Leary-Joyce and Mark Powell

This highly experiential programme is designed for individual coaches and organisational consultants seeking to develop a team coaching practice*. Now more than ever, organisations are looking at how to motivate and manage their teams in a period of change and uncertainty. The time is ripe in the coaching market to differentiate Systemic Team Coaching® from other forms of team or group development and to extend the definition and body of theory and practice in Team Coaching.

A unique opportunity for you to...

- Gain an understanding of the AoEC theory and practice of Systemic Team Coaching®.
- Learn the STC® Process through which the coach contracts with the client system, builds deep awareness of the team's needs, shapes, designs and undertakes the coaching work, and facilitates learning review.
- Understand the distinction between groups and teams and how Systemic Team Coaching® differs from other forms of team development
- Learn the Hawkins 5 Disciplines Model of team coaching: 1) Commissioning, 2) Clarifying, 3) Co-Creating, 4) Connecting, 5) Core learning, and the activities of the Systemic Team Coach in these disciplines
- Explore the implications of team coaching for the coaching contract, especially confidentiality, where the team is the boundary not the individual.
- Gain exposure to models that explore the nature of group functioning and experience them live in the room.
- Focus on Self as Instrument – utilising physical senses, rational, intuition and body-sense as the 'data collector' and sense maker.
- Gain insight into the depth of learning and practice that happens on the full 1 year Master Practitioner Diploma STC Programme.
- Learn how to utilise the Team Connect 360 diagnostic instrument for use with client teams in Step 2 of the STC® process – Inquiry/Re-Contracting

The AoEC Team Coaching Approach

Team Coaching is the next big step in the evolution of the coaching profession. But what is it and how is it different from coaching individual team members, team facilitation; team building; team development or action learning sets?

John Leary-Joyce of AoEC in partnership with Peter Hawkins of Renewal associates created an integrative model of Systemic Team Coaching®. In this workshop, the Faculty will guide you through this complex, systemic approach that demands a much wider range of competencies than individual coaching and traditional team facilitation and development.

A key component of our approach is seeing the Team and indeed the Team's purpose, as the Client and viewing individual members - including the leader - as a subset of that client system. This makes contracting for confidentiality an interesting, delicate and controversial subject.

Stakeholder engagement, internally and externally as well as attention to the wider environmental context adds to the richness and complexity. Coaching at this level, we believe is the hallmark of highly effective team coaching.

International Systemic Team Coaching® Certificate

3 Day Programme with John Leary-Joyce and Mark Powell

Structure of the programme

Prior to the workshop you will be required to engage in a Virtual Module comprising: webinar, article, case study and TC 360 Report, that will give you a sound basis for engaging with the STC® process, then over the three day workshop John & Mark will build on this work to:

- Provide rich didactic context in which we discuss and debate different aspects of systemic team work and team coaching.
- Use a business simulation to evoke the experiences of both coaching a team and experiencing being coached, and applying the diagnostic TC 360 Report.
- Take you through an experience of sculpting and interpersonal exercises to understand team relationships
- Guide you in a peer supervision group to apply the model and methods of the Hawkins 5 Disciplines to a team you are working in/with.
- Work with our own group process as a way of engaging live with the interpersonal dynamics and psychological models.

Team Connect 360 (TC 360) Diagnostic instrument

AoEC in partnership with Peter Hawkins have taken his 20 years of extensive research and development in high performing teams and created an on-line team diagnostic instrument Team Connect 360 based on his 5 Disciplines model. On the programme you will experience the instrument and learn how it can be used. On successfully completing the programme you will become a licenced user and so have the option of using this instrument with your professional clients.

Ongoing Supervision of Practice*

Having completed this programme you may be capable of using the experience with your team assignments. If so, we are keen to support your work with STC® Individual or Group Supervision. For details please contact Mike Smith.

However you should be aware that STC® is a complex process and you do need to be a competent facilitator and coach before applying this material directly. You will be able to integrate the thinking and some of the practice into your coaching, consulting or team leadership work but only on completing the Master Practitioner Diploma programme will you become a fully competent Systemic Team Coach®.

International Systemic Team Coaching® Certificate

3 Day Programme with John Leary-Joyce and Mark Powell

Facilitator: John Leary-Joyce
Founder and President of AoEC

As Founder and CEO, the AoEC is the culmination of his 30 years in the field of training and people development in teams and groups. The AoEC model and structure draws on his academic research and wide experience of Business Leadership, Executive Coaching and Psychotherapy.

Facilitator: Mark Powell

Mark works with senior regional and global leaders, boards and executive teams guiding them through the process of change, and adaptation. He blends coaching, facilitation and consulting to help transform organisational performance. He has coached leaders and executive teams across twelve countries and brings an appreciation of cultural diversity as a lever for high performance. He brings a breadth of experience from a career that spans leadership roles across energy, banking, and professional services, as well as having launched his own start-ups.
